U.S. DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

BLM
Salem District

As the Nation's principal conservation agency, the Department of Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering economic use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interest of all people. The Department also has a major responsibility for American Indian reservation communities and for people who live in Island Territories under U.S. administration.

BUREAU OF LAND MANAGEMENT
Salem District Office
1717 Fabry Road S.E.
Salem, Oregon 97306

Dear Citizen:

Project Update provides current information about projects planned on the Bureau of Land Management's (BLM) Salem District lands. It is our intent to increase the public's awareness of BLM issues, activities and opportunities, as well as generating ideas and comments from those who may be affected by our multiple-use management programs. Your ideas, comments, and participation help us make informed decisions and implement better projects.

Project Update is organized by resource area and within each resource area by type of project. Additional information can be obtained from the BLM staff listed as contacts. Please send written comments, including the specific project name, to the appropriate address listed below during the identified public comment period.

FOR MORE INFORMATION CONTACT:

~ Notice ~

On July 16, 2009 the U.S. Department of the Interior, withdrew the Records of Decision (2008 ROD) for the Western Oregon Plan Revision and directed the BLM to implement actions in conformance with the resource management plans for western Oregon that were in place prior to December 30, 2008.

These projects have been designed to comply to the land use allocations, management direction, and objectives of the 1995 Salem District resource management plan (1995 RMP), as amended.

Timber sale projects included in this update are consistent with the Program of Work announced by Interior Secretary Salazar and disclosed by the BLM on October 14, 2009.

Current projects are described in Tables 1 – 4.
Fiscal Year 2010 timber sales are described in Table 5.

Explanatory comments concerning Tables 1-4:
Projects are organized by project type, project name/description, location, planning status, and contact person. A project may include the following stages:

Developing Proposed Action -A site-specific proposal, called a proposed action, is developed to move the existing condition of an area towards a desired condition or result.

Scoping -Public comment is sought on the proposed action. Comments are used to refine the proposal, or to identify issues which will define the scope of analysis and alternatives to be considered.

Developing Alternatives -A range of alternatives is developed based on the issues raised during scoping, while addressing the purpose and need for the project.

Analyzing Effects - The effects of implementing the alternative(s) are determined and documented in an EIS (Environmental Impact Statement), EA (Environmental Assessment), CX (Categorical Exclusion), or DNA (Determination of NEPA Adequacy).

Comment Period - Comments are generally sought for 60 days on a draft EIS, and for 30 days on an EA, and FONSI (Finding of No Significant Impact). There are no established comment periods for a CX or DNA. Comment periods are established commensurate with the anticipated level of public interest.

Notice of Decisions - Notice of decisions from an EIS and EA will be published in a newspaper in the area where the lands affected by the decision are located. They will be sent to those who have requested such notices. Notices of decision from an EIS will also be published in the Federal Register. Notice for projects which qualify as a CX or DNA will be available for public review at the appropriate field office.

Abbreviations Used in Tables:

AMA	Adaptive Management Area
AMR	Adaptive Management Reserve
APU	Activity Planning Unit
CON	Connectivity
CX	Categorical Exclusion
DNA	Determination of NEPA Adequacy
EA	Environmental Assessment
ERFO	Emergency Relief for Federally-Owned Roads
GFMA	General Forest Management Area
LUA	Land Use Allocation
LSR	Late-Successional Reserves
MBF	Thousand Board Feet
RR	Riparian Reserves
SBA	Small Business Administration

Table 1: Cascades Resource Area Proposed Projects			
Name / Description of Project	**Location**	**Planning Status**	**Contact**
Vegetation Management Actions (Additional vegetation management actions are described under the Multiple Projects heading)			
Airstrip Thinning (DOI-BLM-OR-S040-2009-0004-EA): Approximately 330 acres of 40-70 year-old forest stands are being assessed for commercial thinning within the Matrix and Riparian Reserve land use allocations (LUA). The project was named for an old abandoned airstrip located near the proposed thinning project.	T. 4.S., R.5E., sections 7, 18 within the Middle Clackamas River Watershed near Estacada OR, Clackamas County	Scoping Environmental Assessment (EA) to be completed Summer 2010	Erick Stemmerman (503) 375-5679
Buckner Creek Thinning (CX): Approximately 60 acres of forest stands in the Matrix and Riparian Reserve LUA will be considered for a commercial thinning. All stands proposed are approximately 50 years of age.	T.4S., R2E., Section 11. within the Lower Molalla River watershed between Molalla and Estacada OR, Clackamas County	CX to be completed Summer of 2010	Alisa Tanner (503) 589-6844
Delph Creek Rethinning (# DOI-BLM-OR-S040-2009-0001-EA): The BLM has made a decision to implement the second phase of an ongoing cooperative research project called the BLM's Density Management and Riparian Buffer Study. The cooperators are Oregon State University (OSU) and the USDA Pacific Northwest Research Station (PNW). The selected action is to conduct various density management thinning treatments on approximately 200 acres of 67 year old forest stands within the Matrix and Riparian Reserve LUAs.	T. 3 S. R. 5 E. section 35; within the Eagle Creek watershed near Estacada OR, Clackamas County	EA completed 10/5/2009. Decision completed 3/22/2010	Charley Thompson (503) 315-5966
Evan's Mountain Thinning (DOI-BLM-OR-S040-2010-0006-EA): Approximately 419 acres of 35-106 year old forest stands are being assessed for commercial thinning within the Matrix and Riparian Reserve land use allocations (LUAs).	T.8S., R.3E., Sections 24 and 25; T. 8S., R.4E., Sections 19, 29, and 30; within the Little North Santiam River watershed near Mill City, OR, Marion County	Scoping Environmental Assessment (EA) to be completed Summer of 2011.	Lisa Soo (503) 315-5937
Even Keel Thinning (DOI-BLM-OR-S040-2010-0005-EA): The proposed action is to thin approximately 600 acres of 50 to 65 year old forest stands within the Matrix and Riparian Reserve LUA.	T.11S, R.1E, sec 11,13,23 & 25 within the South Santiam Watershed in Linn County	Scoping Environmental Assessment (EA) to be completed Spring 2011	Leah Schofield (503)315-5926
Gordon Creek Thinning II (EA# OR080-07-05): Gordon Creek Thinning II is the second of three timber sales that will implement the proposed thinning described in the Gordon Creek Thinning Revised EA (March 2009, December 2009). The selected action for Gordon Creek Thinning II is to thin approximately 382 acres.	T.1 S. R. 5 E. sections 3, 9, and a portion of 11; within the Gordon Creek/Lower Sandy Watershed near Corbett, OR, Multnomah County	Revised EA completed in March 2009 and updated in December 2009. Gordon Creek Thinning II Decision completed 5/25/2010.	Keith Walton (503) 375-5676
Gordon Creek Thinning III (EA# OR080-07-05): Gordon Creek Thinning III is the third of three timber sales that will implement the proposed thinning described in the Gordon Creek Thinning Revised EA (March 2009, December 2009). Gordon Creek Thinning III is estimated to be approximately 540 acres.	T.1 S. R. 5 E. section 1, within the Gordon Creek / Lower Sandy Watershed near Corbett, OR, Multnomah County	Revised EA completed in March 2009 and updated December 2009. Gordon Creek Thinning III Decision to be completed April 2011.	Keith Walton (503) 375-5676
Highland Fling Thinning (EA # OR080-08-05): The proposed action is to thin approximately 720 acres of 20-95 year old forest stands (94% of the stands are under 80 years old) within the Matrix and Riparian LUAs.	T. 3 S., R. 3 E., Section 35; T. 4 S., R. 3 E., Sections1, 21, 27 and 29; T. 4 S., R. 4E, Section 21, 27 and 29; and T. 4 S., R. 5 E., Sections 18; within the Milk Creek, Clear & Foster Creek, Upper Clear Creek and North Fork Clackamas River watersheds near Colton and Estacada, OR, Clackamas County	EA completed 3/23/ 2010. Decision to be completed July 2010.	Keith Walton (503) 375-5676
Lost Lulay Thinning (EA #OR080-08-06): The BLM has made a decision to thin 430 acres of forest stands averaging 30-70 years old. This project will be implemented as the Lost Lulay Thinning timber sale.	T. 10 S. R. 1 W. section 25; T. 10 S. R. 1 E. sections 21, 23, 25 & 29: T. 10 S. R. 2 E. section 19: and T. 11 S. R. 1 E. section 5 within the Thomas Creek and Crabtree Creek watersheds near Scio, OR Clackamas County	EA completed 3/31/2010. Decision completed 5/25/2010.	Keith Walton (503) 375-5676
Missouri Ridge Thinning (EA #OR-080-04-20): The proposed action is to thin approximately 150 acres of 30-70 year old timber stands within the Matrix and Riparian Reserve LUAs.	T. 6.S., R.2E., sections 7, 9, 16 within the Rock Creek/Pudding River Watershed in Clackamas County	EA completed July 2005 (FY 2006 Timber Sale Thinning EA). Decision to be completed Fall 2010.	Sandra Holmberg (503) 375-6544
Silviculture – Pre-commercial Actions (DOI-BLM-OR-S040-2010-0003-CX): Pre-commercial thinning, manual maintenance, and pruning throughout the Resource Area.	Cascades Resource Area	CX to be completed June 2010	Lisa Soo (503) 315-5937

Table 1: Cascades Resource Area Proposed Projects			
Name / Description of Project	**Location**	**Planning Status**	**Contact**
Watershed Restoration Actions			
2010 Elkhorn Creek Habitat Restoration: Planting riparian tree seedlings to facilitate development of riparian forests to shade stream channels, and adding logs to increase complexity of large wood habitat structures placed in Elkhorn Creek in 2009.	T.9S, R.3E, Section 1; on about 0.5 mile of lower Elkhorn Creek	Ongoing	Bruce Zoellick (503) 375-5672
2010 Salmon River Habitat Restoration Projects EA: Restore main channel riffle and pool habitats, reactivate flows to side channels, and place large wood in main channel and side channel habitats of the lower Salmon River to provide high quality spawning and rearing habitat for threatened Chinook and coho salmon and steelhead trout populations, and plant tree seedlings to facilitate development of riparian forests to shade stream channels and improve long term supplies of large wood.	T. 2S, R. 6E, Section 25, and T. 2S, R. 7E, Section 3	EA completed 5/17/2010 Decision completed 6/9/2010	Bruce Zoellick (503) 375-5672
Terrestrial Habitat Restoration (DOI-BLM-OR-S040-2010-0002-CX): The purpose of this project is to accelerate the development of late successional characteristics in the young plantations and introduce diversity in young stands by creating of small isolated openings (gaps), and create early seral habitat in the near term. The project is a multi-year project planned to be implemented in five phases. Each phase would focus on 1,100 acres of young forest. Of the 1,100 acres of young forest in each phase, the BLM would treat approximately 80 acres.	Quartzville Creek Watershed	Ongoing	Corbin Murphy (503) 315-5907
Multiple Projects			
None			
Recreation Actions			
2010 Sandy Projects Implementing the SRBMP (EA): road improvement to access Marmot site, foot bridge construction on Little Joe Creek, rehabilitation work at a trailhead.	Sandy River Watershed	Scoping	Zach Jarrett (503) 375-5610
Wildwood Fish Viewing Window: Replace the current underwater fish viewing window located in a side channel of the Salmon River to meet facilities maintenance and safety requirements. The glass will be replaced based on project design and engineering findings. Water will be diverted temporarily while work is done. Work will occur during the instream work period as determined by the fisheries biologist.	T 2S, R7E, Section 31 at the Wildwood Recreation site	NEPA to be completed Fall 2010	Belle Smith (503) 315-5984
Transportation System Management Actions			
Road Maintenance and Repair (EA/CX/DNA)	Cascades Resource Area	Ongoing	Dan Nevin (503) 375-5673
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Cascades Resource Area-wide	Ongoing	Carolyn Sands (503) 315-5973
Silver Falls R&PP Lease Renewal: Assessing renewal of R&PP lease for approximately 244 acres of BLM lands adjacent for Silver Falls Park to be used by the Park as outlined in the Master Plan completed in August 2009.	T 8 S, Range 1 East, Sections 3, 35 T 8 S, Range 2 East, Section 31	Scoping	Traci Meredith (503) 315-5991
Watershed Analysis and other Management Plans			
Molalla River Corridor Plan (EA): Will provide a 15 year management strategy for BLM administered lands in the Molalla River Corridor including; a plan update for the Table Rock.	Molalla Watershed Clackamas County	EA completed June 16, 2010	Zach Jarrett (503) 375-5610

Table 2: Marys Peak Resource Area Proposed Projects			
Name / Description of Project	**Location**	**Planning Status**	**Contact**
Vegetation Management Actions (Additional vegetation management actions are described under the Multiple Projects heading)			
Bottleneck Late Successional Reserve Enhancement (EA#OR 080-07-16): The proposed project area is in Late-Successional Reserves and Riparian Reserves. Project 1 activities include density management of approximately 153 acres of 67-year old forest and approximately 5,000 feet of new road construction; Project 2 activities include the cutting of green conifers to improve wetland habitat, release adjacent green trees with complex crown structure, and create snags and coarse woody debris.	T7S, R9W, Sections 8 and 9: Lincoln County; approximately 10 miles east of Lincoln City, Oregon in the Salmon River-Siletz-Yaquina Bay Watershed.	Original Environmental Assessment completed in March, 2009. Revised Environmental Assessment to be completed in June 2010. Decision Record planned for July, 2010. The timber sale project is proposed for August, 2010.	Gary Licata (503) 315-5948
Upper Siletz River Watershed Restoration (DOI-BLM-OR-S050-2009-0002-EA): The proposed project areas are within approximately 654 acres of Late Successional Reserves, Riparian Reserves and Adaptive Management Areas. The project would include the following activities: density management, road construction and decommissioning and coarse woody debris creation and would be implemented through three timber sales.	T7S, R8W, Section 15; T8S, R8W, Sections 15, 25 and 35: Polk County; approximately 10 miles west of Dallas, Oregon in the Upper Siletz River and Luckiamute River Watersheds.	Environmental Assessment planned for June, 2010. Decision Records planned to begin March, 2011. The initial timber sale project is proposed for fiscal year 2011.	Gary Licata (503) 315-5948
Rickreall Creek Watershed Enhancement (DOI-BLM-OR-S050-2010-0004-EA): The proposed project 1 (Mid-Seral Enhancement) areas are within approximately 1,100 acres of Late Successional Reserves, Riparian Reserves and Adaptive Management Areas. The project would include the following activities: density management, road construction and decommissioning and would be implemented through six timber sales. The proposed project 2 (Rickreall Creek Stewardship 001 Project) would include the following activities: density management on three forest stands approximately 36-years-old and 60 acres in area. The project would be accomplished through the authorization of the Stewardship Act. The proposed project 3 (Legacy Tree Release and CWD/Snag Creation) areas are within approximately 200 acres of Late Successional Reserves and Riparian Reserve Areas. The project would include the following activities: felling, girdling and topping of individual trees or creation of gaps (1/4 acre to one acre in size). All felled trees would remain on site. The project would be implemented through a service contract	T8S, R7W, Sections 3, 4, 5, 9 and 11, T7S, R6W, Section 22 and T8S, R6W, Section 5: Polk County; approximately 10 miles west of Dallas, Oregon in the Rickreall Creek and Luckiamute River Watersheds.	Environmental Assessment planned for March, 2011. Decision Records planned to begin May, 2011.	Gary Humbard (503) 315-5981
Apple Rock Commercial Thinning (DOI-BLM-OR-S050-2009-0007-CX): The proposed project area is approximately 49 acres of 58-year-old forest in Adaptive Management and Riparian Reserves. Project activities include density management and commercial thinning.	T7S, R6W, Section 31, Polk County; approximately 4 miles west of Dallas, OR in the Rickreall and Luckiamute River Watersheds.	Categorical Exclusion and Decision Record to be completed June 2011. The timber sale is proposed for fiscal year 2011.	Stefanie Larew (503) 375-5601
Rickard Creek Timber Sale (EA# OR 080-07-13): This proposed project area is approximately 120 aeres of 72-year old forest in General Forest Management Areas and Riparian Reserves. Proposed activities include regeneration harvest, density management, commercial thinning, road construction and renovation.	T13S, R6W, Section 29, Benton County; approximately 10 miles west of Monroe, OR in the Marys River Watershed.	Original Environmental Assessment completed in March 2008. Original Decision Record completed May 2009. The timber sale was sold in June, 2009. Revised Environmental Assessment completed in December 2009. Due to the implementation of the 2001 Survey and Manage ROD, the Revised December 2009 EA will have a 2nd revision in the fall of 2010.	Phil Sjoding (503) 315-5980
Upper and Lower Alsea River Watershed Restoration (EA# OR 080-08-08): The proposed project areas are within approximately 782 acres of Late Successional Reserve and Riparian Reserves. Project 1 would include the following activities: density management, road construction and decommissioning, road renovation and coarse woody debris creation and would be implemented through four timber sales. Project 2 activities would include restoration of approximately 36 acres of hardwood dominated stands.	Upper and Lower Alsea River Watersheds, Benton County; approximately 12 miles southwest of Philomath, OR.	Environmental Assessment completed in March, 2009. Revised EA completed in May, 2010. The projects are proposed for fiscal years 2010 and 2011.	Gary Humbard (503) 315-5981
Green Peak II Density Management and Riparian Buffer Study (EA# OR 080-08-14): The proposed project area is approximately 158 acres of 70 year old forest in Late Successional Reserve and Riparian Reserve. The project consists of a second phase of silvicultural treatments underlying research in the BLM's Western Oregon Density Management and Riparian Buffer Study Plan. This is in cooperation with Oregon State University and the USDA Forest Service Pacific Northwest Experiment Station. The proposed activities include density management, road reconstruction and coarse woody debris creation.	Marys River Watershed, Benton County; approximately 12 miles southwest of Corvallis, OR.	Environmental Assessment completed in July 2009. Revised EA completed in February, 2010. The timber sale was sold in April 2010.	Cory Geisler (503) 315-5949

Table 2: Marys Peak Resource Area Proposed Projects			
Name / Description of Project	**Location**	**Planning Status**	**Contact**
Marys Peak Resource Area Noble Fir Progeny Test Site Thinning Categorical Exclusion Review (DOI-BLM-OR-S050-2010-0001-CX): This project consists of thinning approximately 17 acres of 28 year old overstocked young conifer progeny test sites to promote the health and vigor of the stands and provide more light to accelerate growth of selected conifers.	Marys Peak Resource Area	Categorical Exclusion completed May, 2010.	Arlene Roux (503) 375-5955
Marys Peak Meadow Restoration (EA# DOI-BLM-OR-S050-2010-0002-EA): This project consists of cutting and removing conifer trees less than 12 inches diameter breast height outside bark (DBHOB) which have been encroaching into meadow habitat on BLM managed lands. The severed trees would be slashed and scattered under the older conifer forest habitat and/or piled and burned or transported to the existing right-of-way and chipped and hauled off-site.	T.12 S., R. 7 W., Section 28; Upper Alsea River and Marys River Watersheds, Benton County; approximately 9 miles southwest of Philomath, OR	Environmental Assessment completed April 2010. Decision Record signed April 2010.	Ron Exeter (503) 315-5963
Lower Mill Creek Enhancment (DOI-BLM-OR-S050-2010-0003-CX): Mill Creek Stewardship 001 Project (Project 1): The proposed action is density management on one forest stand approximately 36-years-old and 22 acres in area. No road construction will be necessary. The project would be accomplished through the authorization of the Stewardship Act. Panther Creek Timber Sale (Project 2): The proposed action is density management on two forest stands approximately 39-54 years-old and 39 acres in area. No road construction will be necessary.	T.7 S., R. 6 W., Section 9; Mill Creek- South Yamhill Watershed, Polk County; approximately 6 miles northwest of Dallas, OR	Categorical Exclusion completed May, 2010. Decision Record for Project 1 signed May 2010.	Stefanie Larew (503) 375-5601
Watershed Restoration Actions			
Marys Peak Resource Area Noxious Weed Control Utilizing Herbicides: (DOI-BLM-OR-S050-2010-0005-EA): The project proposes to implement a long term herbicide plan to reduce and control noxious weed species throughout the MPRA.	Marys Peak Resource Area-wide	Environmental Assessment completed April 2010. Decision Record signed May 2010.	Ron Exeter (503) 315-5963
Marys Peak Resource Area Legacy Enhancement and Coarse Woody Debris Creation (DOI-BLM-OR-S050-2010-0006-EA). This project is intended to release and restore declining old-growth legacy trees and enhance coarse woody debris conditions within Late-Successional Reserve and Riparian Reserve allocations at selected locations within the Alsea River Basin. Activities would include removal of encroaching young conifer trees, small gap creation, girdling, falling, or topping of selected trees. All felled trees would be left on site. Total treatment area expected to be less than 500 acres.	Various locations in Benton County within the Alsea River Basin	Environmental Assessment to be completed in June 2010. Decision Record to be signed July 2010.	Scott Hopkins (503) 315-5956
Recreation Actions			
Alsea Falls Recreation Area Management Plan (DOI-BLM-OR-S050-2010-0001-EA): Develop a comprehensive recreation management plan of the Alsea Falls Recreation Site, South Fork Byway and surrounding lands.	T14S, R7W, Sections 17, 19-21, 25-36, T14S, R6W, Section 31, T15S, R8W, Section 1, T15S, R7W, Sections 2-8, 10, 12, and T15S, R6W, Sections 5&7 (Benton County), about 8 miles southwest of Alsea	Scoping completed and assessment ongoing; general comments and concerns welcome. Environmental Assessment to be completed by January, 2011. Management plan to be completed by 2011.	Traci Meredith (503) 315-5991
Transportation System Management Actions			
South Fork Alsea River Access Road (Road #14-6-34.1) Hazard Tree Removal and Alsea Falls Park Enhancement (EA# OR080-07-03): Alleviate risk to public users resulting from hazard trees and excessive buildup of leaf litter. Enhance vegetation, visual characteristics and safety hazards at Alsea Falls Recreation Site by managing structure and thinning trees. Remove densely stocked trees with low vigor and other hazard trees to enhance tree growth and stand health in addition to providing a visually appealing and safe park for visitors.	Adjacent to a road designated as a backcountry byway (Road # 14-6-34.1) and Alsea Falls Recreation Site (T. 14 S., R. 7 S., Section 25 and 26). Benton County.	Environmental Assessment completed January, 2009. Revised EA to be completed in June, 2010. Decision record is planned for July, 2010 and initial timber sale is planned to be negotiated September, 2010.	Traci Meredith (503) 315-5991 or Gary Humbard (503) 315-5981
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Marys Peak Resource Area-wide	Ongoing.	Gary Humbard (503) 315-5981

Table 3: Tillamook Resource Area Proposed Projects			
Name / Description of Project	**Location**	**Planning Status**	**Contact**
Vegetation Management Actions (Additional vegetation management actions are described under the Multiple Projects heading)			
Gunners Lakes Project (EA): The projects being considered include commercial thinning, road stabilization and decommissioning. Lands are within the Matrix (General Forest Management Area and Connectivity) and Riparian Reserve land use allocations.	T3N R3W sections 7, 9, 21 and 29, East Fork Nehalem Watershed, Columbia County.	Environmental Assessment was completed in May 2010. A Decision is expected to be made in June 2010. First timber sale is expected to be offered in 2011.	Bob McDonald (503) 815-1110
Rocky Point Bald Eagle Habitat Enhancement Project (EA): The proposed project is a wildlife habitat enhancement treatment on approximately 92 acres. Lands are within the Matrix (Connectivity) and Riparian Reserve land use allocations.	T3N R2W section 35, Multnomah County.	Environmental Assessment is expected to be completed in June 2010, with a Decision in July 2010.	David Larson (503) 815-1119
Turner Creek Project (EA): The project being considered includes commercial thinning, road stabilization and decommissioning, and wildlife habitat enhancement. Lands are within the Adaptive Management Area and Riparian Reserve land use allocations.	T2S R5W sections 3, 5, 7, 9, 17, 21 and 29, Yamhill County.	Scoping is expected to begin in July 2010 and the Environmental Assessment is expected to be completed in September 2010. The first timber sale is expected to be offered in 2011.	Bob McDonald (503) 815-1110
Watershed Restoration Actions			
Multiple Projects			
Cedar Creek Project (EA): The projects being considered include commercial density management thinning, fish and wildlife habitat enhancement, rock quarry development, and road stabilization/decommissioning. Lands are within the Adaptive Management Area, Late-Successional Reserve and Riparian Reserve land use allocation.	T3S R6W section 5, 7, 9, T3S R7W sections 11, 12, 13 and 14, Upper Nestucca Watershed, Tillamook and Yamhill Counties.	Environmental Assessment is expected to be completed in June 2010, with a Decision in August 2010. The timber sale is expected to be offered in 2011.	Steve Bahe (503) 815-1123
Recreation Actions			
Process Requests (EA/CX/DNA): For various actions such as special use permits.	Tillamook Resource Area-wide.	Ongoing	Debra Drake (503) 815-1134
Transportation System Management Actions			
Testament Creek Road and Von Road Repairs (EA): The proposed project will include repairs and potentially decommissioning of sections of the Testament Creek and Von Roads that were damaged by storms during the winter of 2007-2008.	T3S R5W section 30, and T4S R7W section 4, Von Road and Testament Creek Road, Yamhill and Tillamook Counties.	Environmental Assessment has been completed and the Decision has been made. Work is expected to be completed during the summer of 2010.	Bob McDonald (503) 815-1110
East Beaver Creek Road Project (EA): The project being considered would stabilize or decommission approximately three miles of the BLM-controlled portion of East Beaver Creek Road. This road was damaged by storms during the winter of 2007-2008 and has been closed to all traffic except OHVs since that time.	T3S R8W section 6, T2S R8W sections 28, 29, 31, 32 and 33, East Beaver Creek Road, Tillamook County.	Scoping is expected to begin in July, 2010.	Bob McDonald (503) 815-1110
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Tillamook Resource Area-wide	Ongoing.
